Introduction

After the success of GRS's initiative on management consultancy, the consulting scope of GRS expanded to technology services too. GRS strongly believes that today's business needs IT friendly environment to have competitive strength in the defined target market. GRS therefore expanded its services to ICT industry in order to provide various consulting and other services to our valued clientele. Our services primarily targets local establishments in ICT consultancy, software development, network & infrastructure services and hardware sales and support services.

This portfolio of consultancy is headed by Ph.D. scholar in Computer Engineering having 15 years plus experience with phenomenal career achievement while working in various business spheres of Information Technology.

GRS's Mission is to achieve the reputation of a quality, high standard & reliable solution & service Provider Company in the ICT industry.

GRS'S Vision is to achieve 100% customer satisfaction by delivering quality products and services at an affordable cost. Our forward vision is to strive to become an entity in technology based corporate solutions, capable of demanding unconditional response from the targeted niche. We also believe that for our scope of improvisation – sky is the limit and we are always ready to take our achievements to the next level. We are growing and would always like to remain on the growing streak.

Our keys for development:

- Desire for Excellence
- Trust and confidence build-up
- Innovation
- Transparency
- Teamwork

We believe in

- Motivation
- Collective responsibility and leadership
- Professionalism and ethics
- Adding values to our client needs

OUR INVOLVEMENT

■ ICT CONSULTANCY

We consult for high-end technology implementation at clients' site or implementation of new technology according to the clients' requirement or upgrading, enhancing the existing facilities in the clients end with the new technology integrated with the existing one. GRS offers a full range of consulting services to help analyze your business requirements for effective implementation of solutions. Our ICT consulting services cover:

- Strategy planning
- Assessment
- Procurement
- Re-engineering solutions
- Planning, audits, best practices etc.

■ SOFTWARE DEVELOPMENT

Beside the hardware and network solutions; with design and development expertise in diverse platforms, best-of-breed tools and techniques, combined with industry best practices, GRS offers scalable end-to-end application development and management solutions from requirement analysis for deployment and rollout. We are developing software, related to garments- production management, commercial jobs, buying, accounting software for trading, manufacturing house and conglomerates. We hope to come to you with desired software at a reasonable cost. GRS's services span the following application lifecycle stages:

- **APPLICATION DEVELOPMENT** – Providing end-to-end development from requirement analysis for deployment and rollout.
- **APPLICATION MAINTENANCE** – Changing or enhancing software to meet changing or increasing business demands in the post-rollout phase of an application
- **APPLICATION SUPPORT** – Providing first, second, third line support and on-call support. On-call support further includes Gold (24x7), Silver and Bronze support.
- **APPLICATION INTEGRATION/MIGRATION/TRANSFORMATION** – Replacing, migrating and integrating legacy or bespoke systems with COTS products.
- **APPLICATION MANAGEMENT** – The application management layer cuts across all software engineering activities listed above. GRS takes complete ownership of the outsourced suite of applications as per the agreed scope and manages the support. This typically involves transition management, project management, proactive risk and scope change management, quality management, SLA management etc.

■ NETWORK & INFRASTRUCTURE SERVICES

Growth in the Solution Integration (SI) services market is fueled by the need for seamless business processes across an organization's complete value chain of customers, partners, suppliers, and employees. GRS's services enable clients to identify, develop, and implement the best-fit solutions which are equipped to meet their changing business requirements.

GRS's Solution Integration services offer to:

- Leverage IT investments
- Minimize risks
- Maximize compatibility
- Maximize interoperability

GRS provides total project management, right from architectural design, integration, system and interface development to migration backed by world-class methodologies, well-defined solution frameworks and extensive integration experience with tier-1 service providers.

■ HARDWARE SALES & SUPPORT SERVICES

We offer servers, computers, computer accessories and services by sourcing from local market and from international market as well. Our team of experts is ready to serve you when you are worried due to lack of confidence in "commitment of service". You are hereby requested to call us for any kind of requirement of computers, computer parts and services whatever and whenever you need.

GRS's also offer & Supply, Delivery & Installation of:

- Data Centre , Structure Cabling Systems
- CISCO Switch, Firewall, Wireless & Routers.
- **KASPERSKY** antivirus and **UTM**
- PC, Server & Storage
- Server & Switch Equipment maintenance

■ MANAGED SERVICES

GRS has the expertise and experience to manage an enabling infrastructure and applications and run outsourced operations for large telecom operators smoothly. GRS's Managed Services offerings cover the entire array of IT outsourcing services including networks, IT infrastructure, applications and business processes. This provides our customers the best of both worlds - control and flexibility over their information systems without either the pain or cost of running them.

■ UNIFIED COMMUNICATION

With the Microsoft Office Communication Server (OCS) 2007 we are there to build all your communication need including instant messaging and e-mail services.

STRENGTH & CAPABILITIES

The development team of GRS is equipped with proper human resources specialized in different system development tasks. The key areas are;

■ SYSTEM ANALYSIS & DESIGN

System analysis and design team combines both functional and technical analysts. We believe to develop a proper system of which functional analysis is equally important as technical analysis. Our system analysis and design team specializes in the software like Microsoft Visio, Rational Rose and Microsoft Visual Modeler.

■ SOURCE CODE REPOSITORY AND ADMINISTRATION

For source code version control and multiple programmer interaction management we use Visual Source Safe as our source code control software.

■ DATABASE MANAGEMENT

We have database expertise ranging from ISAM or flat database systems like Microsoft Access, Visual FoxPro to robust commercial database engines like Oracle and Microsoft SQL. For web-database connectivity and cross-platform data management we also have specialized experience and expertise in My SQL database server.

■ WEB DEVELOPMENT AND DESIGN

Our web developers and designers are skilled in development with Microsoft Front Page, Macromedia Fireworks and Dream Weaver for web site design.

■ PROGRAMMING

Our young and talented programmers have a wide range of experience in developing systems. Our programming skill involves:

- **PROGRAMMING LANGUAGES:**
VB, Visual C++, Java, VB for Application (VBA) and Microsoft .Net Platform.
- **WEB PROGRAMMING LANGUAGES:**
PHP, Perl/CGI, Active Server Pages (ASP)
- **SCRIPTING LANGUAGES:**
Java Script, VB Scripts
- **MULTIMEDIA DEVELOPMENT:**
Flash and Flash Script.
- **WEB SERVERS:**
Microsoft IIS and Apache
- **OPERATING SYSTEMS:**
Microsoft Platform and Linux/Unix
